Come in for more or just to check us out!

Eating a healthy, balanced diet plays an essential role in maintaining a healthy weight, which is an important part of overall good health.

The key to a healthy eating is to:

- Eat the right amount of calories for how active you are, so that you balance the energy you consume with the energy you use. If you eat or drink too much, you'll put on weight. If you eat and drink too little, you'll lose weight.
- Eat a wide range of foods to ensure that you're getting a balanced diet and that your body is receiving all the nutrients it needs.
- Starchy carbohydrates should make up just over one third of the food you eat. They include potatoes, bread, rice, pasta and cereals.
- It's recommended that we eat at least five portions of a variety of fruit and veg every day. It's easier than it sounds.
- Fish is a good source of protein and contains many vitamins and minerals. Aim to eat at least two portions of fish a week, including at least one portion of oily fish. Oily fish contains omega-3 fats, which may help to prevent heart disease.
- Cut down on saturated fat and sugar. We all need some fat in our diet, but it's important to pay attention to the amount and type of fat we're eating.
- **Act More.** For more info look on our website.

Clear Organic Market

Direct Mail

Creating Branding for new health food store that included a logo, 2 direct mail pieces according Canada post specs, bus shelter and web site design for a home and registration page .

About me

My name is Stephanie Huber a Graphic Designer who is in my last year of school. Before this I was in Web Design and Development but during that I found I like the graphic design more then the web.
